

EMPLOYEE BENEFITS GUIDE *2021*

Effective January 1 – December 31, 2021

BENEFIT NEWS

Great River Health offers a comprehensive benefit package, with many different options to meet the needs of our workforce. This guide contains a high-level summary of the different benefits coverages and options available to you. While every effort has been made to ensure this booklet accurately reflects the provisions of the plans, only the official plan documents govern the operation of the plans and payment of benefits.

Resources

One harmonized plan – Two campuses

While the benefit plans are the same, the main campuses at FMCH and GRMC maintain separate payrolls, benefits enrollment process, and document posting. Therefore, where benefits communication refers to a difference between FMCH campus and GRMC campus, it is referring to the payroll location, and not the physical work location, for the employee.

HEALTH SAVINGS ACCOUNT

A Health Savings Account (HSA) is a tax-advantaged savings account, only available to those enrolled in the High Deductible Health Plan. This plan has a higher deductible; however, it has lower premium costs with the intention that you will set aside the premium savings in your HSA. In addition to your contributions, Great River Health will put funds in your HSA on your behalf. These funds can be used to help pay for your out of pocket costs.

An HSA is an individual bank account with triple tax advantages – money goes in tax free, grows tax free and can be used to pay for eligible medical expenses tax free. The funds in your HSA carry forward, year after year, even into retirement. There is no requirement to spend the money and you own your HSA and the funds in it, even if you leave Great River Health or change medical plans. The funds are yours and will not expire.

To be eligible and qualify for an HSA, you must meet the following requirements:

- You must be covered under the High Deductible Health Plan with HSA.
- You may not have other health coverage.
- You are not enrolled in a governmental plan such as Medicare, Medicaid or Tricare.
- You cannot be claimed as a dependent on someone else's tax return.
- You or your spouse/domestic partner cannot have a Medical Flexible Spending Account (FSA) unless it is a Limited Purpose Medical FSA.

Contribution of funds to an HSA

- Employees must set up their HSA at Two Rivers Bank & Trust. They must also provide the account information to Human Resources so the contributions can be sent to their account.
- Great River Health will contribute up to \$240 for individual coverage / \$600 for family coverage annually. The funds are deposited into the account each pay period as part of the payroll process. Employees, who are covered under the CWA Contract, are not eligible for the employer contribution.
- You can also contribute to your account on a pre-tax basis via payroll deduct up to the IRS contribution limits.
- You can contribute on a post-tax basis and then take the deduction when completing your personal income taxes.

2021 IRS ANNUAL LIMITS	
Single	\$3,600
Family	\$7,200
Catch up limit for those 55 or older	\$1,000

IRS Limits are a combination of the employer AND employee funds.

Using your HSA Funds

- You can use the money in your HSA to pay for qualified expenses.
- The utilization of HSA funds for qualified expenses are tax-free.
- You may withdraw funds to pay for the qualified expenses for yourself, your spouse, or a dependent without tax penalty, even if the spouse or the dependent does not meet the eligibility requirements to contribute to an HSA (dependent must be a tax dependent).
- Withdrawals are permitted even if you are no longer eligible to contribute to the HSA, if you are enrolled in Medicare, or no longer enrolled in an HSA-eligible high deductible health plan.
- You can use the money in your HSA for non-qualified expenses; however, the money will be taxed, and penalties MAY apply.
- You can elect to save your HSA funds for future medical expenses and retirement.

DENTAL

Oral health is essential to overall health. Regular dental exams can help you and your dentist locate problems in the early stages when treatment is simpler, and costs are lower. Keeping your teeth and gums clean and healthy will help prevent most tooth decay and periodontal disease.

Funds are deducted each pay period on a pre-tax basis and are deposited into your Health Care and/or Dependent Care FSA. You then use your funds to pay for eligible health care or dependent care expenses. Employee Benefit Systems administers the Great River Health FSA plans.

Important Information about FSAs

Your FSA elections will be in effect from January 1 through December 31, 2021. Claims for reimbursement must be submitted by March 31st of the following year. If you leave employment during the plan year, remaining funds are forfeited. Please plan your contributions carefully.

Great River Health allows for up to \$550 of unused Health Care FSA funds to carry over to the next FSA plan year. Any unused funds over \$550 or under \$100 will be forfeited. This is known as the 'use it or lose it' rule and it is governed by IRS regulations. Note that FSA elections do not automatically continue from year to year; you must actively enroll each year. If you have rollover money from the current year's FSA and you want to enroll in the HSA, the rollover money can roll into a Limited Health Care FSA.

Remember that you must save all receipts from purchases made on your EBS FSA Benefit Card. You may be asked to submit a receipt to validate the purchases made with your card.
